The purpose of this data collection is to gather Average Daily Membership (ADM). The rules and guidelines for reporting ADM hare-not-changed. Based on legislation and the rules of the State Board of Education, the **first count** of students in ADM will occur on **September 16, 2005.** This collection of ADM will be used for the calculation of State Support in 2006. The **second count** of students in ADM will occur on **December 1, 2005**.

Audience

Public schools and Charter schools should report ADM for students being educated in grades K-12. The Student Residence Report, DOE-SR, also collected in the application center, is an additional required collection for charter schools.

Instructions

The file may be in any of the formats contained in this document and must contain all the fields in the order described. In addition, the STN number must exist in the STN Lookup in the Application Center. Previously, the submission of the Programs and Services, DOE-PS, was a required collection to obtain the grade level of the students in ADM for the reporting corporation. Starting with the 2005-2006 school year, the grade level will be included on the DOE-ME therefore; the DOE-PS will not be a required submission for the completion of the DOE-ME.

The **first required collection period** for ADM begins <u>on</u> **September 16, 2005**, and will last until **September 30, 2005**, which is the <u>final</u> date for first submission. The **second required collection period** for ADM begins <u>on</u> **December 1, 2005**, and will last until **December 16, 2005**, which is the <u>final</u> date for the second submission. During this time you are required to submit a file and review the processing results for errors. If there are errors or inaccuracies you may correct the data file and resubmit the file until the end of the day of the final collection date. Additionally, you are required to review the reports in the Message Center for accuracy. These reports are provided for you under Reports and should be printed and reviewed by the responsible person(s). The Division of School Finance requires the <u>final corporation Report of Average Daily Membership</u> be signed by the Superintendent and Treasurer/Trustee and mailed to their division (see reference section for address). The signed report must reflect the totals in the Application Center and all membership conflicts must be resolved before the report is printed and returned. Any corrections or additions to the DOE-ME data or the DOE-CL after the report is mailed will require another <u>signed and returned</u> report. Supporting documentation of enrollment and attendance information by grade and school must be available in the event of an audit of state distributions by **Board of Accounts.** There is functionality in the Application Center that allows the student data to be downloaded, reports to be printed for documentation, and tracking the status of the collection.

Membership Conflicts

Membership conflicts occur when two or more corporations count the same student as part of their ADM. Generally, this occurs for a student(s) that can be counted by the corporation of legal settlement and not the corporation where the student is receiving their education. These conflicts need to be resolved quickly and accurately. A new functionality has been added to the Application Center to assist in conflict resolution. The "Conflicts Report" found in the Message Center will provide all membership information on the student supplied by all schools or corporations involved in the conflict and will be made available to all schools or corporations involved in the conflict. The DOE-ME records in conflict are **removed** from the database until the responsible school/corporation determines that the **student cannot be counted in their membership**. Conflicts will be time stamped and will not remain open issues. Conflicts must be resolved in a timely manner or the student **will not be included** in any corporations ADM count.

Common Scenarios

The following section contains several likely scenarios of student membership and a description of how they would be reported.

Determining Membership

Scenario #1: Student has legal settlement in your district and is attending your corporation.

Scenario #2: Student has legal settlement in your district and is attending in another district.

Scenario #3: Student is attending in your district because of State Obligations.

Scenario #4: Student has legal settlement in your district, attends a Nonpublic school or home school and your school.

Scenario #5: Student has legal settlement in IPS and attends one of the six (6) township schools under the Desegregation Order No. IP-68-C-225 will be reported by IPS.

Scenario #6: Student has legal settlement in Indiana, is attending in your district, and has been placed by parents in an Institution or Treatment center.

Scenario #7: Charter Schools report students as a resident enrollment, type 1.

Scenario #8: Student has legal settlement another district and attending in your district based on an agreement under which the parents will pay transfer tuition to your corporation.

Reporting Results for all types and scenarios:

Example: Corp 8800 is the corporation reporting data. 0001 is one of their elementary schools.

Corp 9300 is the charter school corporation reporting data for their students in school 1534.

Corp 8800 is the corporation reporting data on a transfer out student that attends school 9222 in another corporation.

Corp 5385 is IPS reporting data on a desegregation student that attends school 5213 in another corporation or district.

Scenario #9: A student from a nonpublic school is enrolled in a public school for speech only 20 minutes 1 day a week.

Reporting Result: The student will be reported by the public school as a dual enrollment type 6. The instructional minutes should be calculated as 4 minutes a day (20/5). The instructional days would calculate as 1 day per week.

ADM Type Definitions

Public Schools:

<u>Resident Enrollment</u> – Students with **legal settlement in your corporation** who are enrolled and attending school in your corporation. This type also includes: (1) special and vocational education students enrolled in your corporation who are attending a cooperative; and (2) foreign exchange students who are residing in, enrolled and attending school in your corporation. The cooperative does not have to be located in your district.

Resident Enrollment for a charter school — Include students who are enrolled and attending school in your charter school. Transfers out — Students with legal settlement in your corporation who are enrolled and attending a public school corporation in Indiana or another state for the following reasons: (1) an agreement between your corporation and the educating corporation, (2) a "better accommodation" student transfer agreement under IC 20-8.1-6.1-2 between your corporation and the students parents, or (3) a "better accommodation" order by the State Board of Education. This type also includes students with legal settlement in your corporation who are served by a public or private school under a contract for residential or alternative services through the State Superintendent of Public Instruction. Additionally, this type includes students with legal settlement in your corporation who are enrolled and attending school in another Indiana school corporation as a result of a placement by a parent, for the students' physical or emotional health and well being, in a state licensed private or public health care or child care facility that is located in the other school corporation. If the placement is in a health care facility and is recommended by a physician, the placement must be projected to be for no less than fourteen (14) consecutive calendar days or an aggregate of twenty (20) calendar days.

<u>Cash Transfers</u> – Students **legal settlement in another corporation** who are enrolled and attending school in your corporation based on an agreement under which the parents will pay transfer tuition to your corporation.

<u>State Obligations</u> –Students who are enrolled and attending in your corporation and whose presence in your corporation is the result of one of the following <u>state actions</u>: (1) placement in an institution operated by the division of disability, aging, and rehabilitative services or the division of mental health that is located in your corporation, or (2) placement by the division of disability, aging, and rehabilitative services or the division of mental health in an institution, a public or private facility, a home, a group home, or an alternative family setting that is located in your corporation. This type **also includes** students who are enrolled and attending school in your corporation who are children of state employees living on state property. **Do not include** students who are placed in your school corporation by parents, by Indiana county welfare offices, Indiana courts, or Indiana licensed child-placing agencies, or by governmental entities from another state.

<u>Placements In</u> – Students who are enrolled and attending school in your corporation as a result of a placement by Indiana county welfare offices, Indiana courts, Indiana licensed child-placing agencies, or by a parent or guardian in a state licensed private or public health facility, child care facility, or foster home that is located in your corporation. Their placement in your corporation is for non-educational reasons.

<u>Dual Enrollment</u> – Students, who are enrolled in <u>your public school and a nonpublic school</u>, have legal settlement in your corporation and receive instructional services from the corporation. (Amendment P L 93 for IC 21-3-1.6(d) changed the definition of ADM to determine dual enrolled students.)

Charter Schools:

Resident enrollment—Students who are enrolled and attending school in your charter school on count day.

<u>State Obligations</u>—Students who are enrolled and attending school in your charter school that are children of state employees living on state property.

Transfers out, cash transfers, placements in, dual enrollment – do not apply to a charter school.

Students NOT included in ADM Count

<u>Transfers In</u> – Students who have **legal settlement in another Indiana school corporation** but who are enrolled and attending school in your school corporation.

<u>Placements out</u> – Students who have **legal settlement** in your school corporation who are **attending another Indiana school corporation** and were placed by Indiana county welfare offices, Indiana courts, Indiana licenses child-placing agencies, or by a parent or guardian in a licensed facility or foster home located in the other school corporation.

<u>Out-of-state-students</u> – Students who have **legal settlement in another state** and who are placed by their parents or by an out-of-state governmental entity in a facility, institution, or treatment center located in your corporation.

<u>Indiana School for the Blind</u> - Students who attend this school are not included in ADM Count, this is a State operated school that does not obtain funding from the Basic Grant.

<u>Indiana School f or the Deaf</u>- Students who attend this school are not included in ADM Count, this is a State operated school that does not obtain funding from the Basic Grant.

ADM Calculations

Public Schools: TOTAL ADM equals RESIDENT ENROLLMENT plus TRANSFERS OUT plus CASH TRANSFERS plus STATE OBLIGATIONS plus PLACEMENTS IN plus DUAL ENROLLMENT.

Charter Schools: TOTAL ADM equals RESIDENT ENROLLMENT plus STATE OBLIGATIONS.

Dual Enrollment Full Time Equivalency

In determining the ADM, each pupil enrolled in a public school and a nonpublic school is to be counted on a full-time equivalency basis. The calculation of full-time equivalency will be reflected on the **ADM Summary Report** and applies to each student who:

- 1) is enrolled in your public school corporation and a nonpublic school;
- 2) has legal settlement in your corporation; and
- 3) receives instructional services from your corporation

Example of calculation:

Students in Grades 1-12:

A = Number of instructional days for student (Field #5)

B = Student's public school instructional time (Field #6)
Rounded by nearest .01

C = A multiplied by B

D = C multiplied by 1.05 Round D to nearest .01 Not greater than 1

FTE for students in grades 1-12 = D

Students in Kindergarten:

E = D multiplied by .50

FTE for student in kindergarten = E

divided by 180

divided by Actual public school instructional time rounded to the nearest .01

Obtained from the DOE-CL School Calendar
